

# Sioux Lookout District Master Angler Release Awards Program

2006  
Report

# Sioux Lookout District Master Angler Live Release Awards Program

*This report is dedicated to recognizing the accomplishments of a single angler, who in the given year participated in the Master Angler Release Awards Program, entering as many releases possible in each species division. Congratulations sportsmen!*

*We all have a responsibility to our natural resources. Your participation in the Master Angler Release Awards Program over the last 14 years takes that responsibility to the next level – illustrating your understanding of the importance and expressing your true dedication to preserving the endless angling opportunities that our great Canadian wilderness has to offer!*

*This program is about respecting the delicate balance of select harvest coupled with big fish releases, whether 1 fish or 20 fish – we are all winners! Our thanks to you, for your participation in the Sioux Lookout District Master Angler Live Release Awards Program. Best of luck in 2007!*

## A little bit of history . . .

*We are a non-profit, conservation based Catch and Live Release Program, operated by a group of volunteers. As members of various Fisheries Advisory Committees, our goal is to ensure that the Sioux Lookout District continues to provide excellent angling experiences in both quality and quantity for years to come while sustaining our fish resources. We are proud to have the support of area businesses, the Sioux Lookout Hudson Tourism Association and the local Ministry of Natural Resources who have provided funding and support to ensure that this program remains successful. Visitors to the Sioux Lookout area – whether it is from neighbouring communities or from our friends south of the border, you come to experience the amazing angling opportunities that will provide memories to last a lifetime!*

*Here's to great fishing in 2007!*

## THE AWARDS

Anglers who enter a released fish of qualifying length will receive:

- a) Upon registration a Crest Award
- b) At the end of the program year a Certificate of Recognition

## PROGRAM GUIDELINES & UPDATES FOR 2007

At the start of the 2006 season, the program was reviewed and as its intentions were studied, it became obvious that some of the parameters given to each species for qualifying lengths needed to be reviewed so that each Master Angler truly reflected catching a trophy fish in our lakes. Upon completion of the review, the Smallmouth Bass category changed from 18" to 19". Can you imagine having too many 18" Smallmouth Bass? It is great to be able to say that our trophy Bass are a minimum 19 inches. Don't get us wrong, an 18" Smallmouth Bass is still a fantastic catch but a 19" is truly a trophy!

Program dates for the 2007 Awards Year are November 1, 2006 through to October 31, 2007.

Who can enter? Anglers fishing in The Sioux Lookout District. Non-resident anglers must be staying or residing at a Sioux Lookout based establishment.

Anglers are encouraged to enter all qualifying fish they release.

Fish must be caught by angling and in accordance with regulations of the Province and the District. Lake specific regulations may apply to various bodies of water and must be adhered to.

Qualifying fish must be submitted individually on an official entry form by the end of the program year.

## REGISTRATION

Registration Centres include the Travel Information Centre located in Sioux Lookout and any other participating businesses or lodges. Registration fee is \$7.00 per entry.

## QUALIFYING FISH SIZES

Lake Trout	34 inches
Muskie	44 inches
Northern Pike	40 inches
Smallmouth Bass	19 inches
Walleye	27.5 inches

**FOR FURTHER INFORMATION CONTACT:**  
Sioux Lookout Master Angler Release Awards Program  
P.O. Box 397, Sioux Lookout, ON CANADA P8T 1A5  
Telephone: (807) 737-2991 or 737-1279

## Enjoy the Benefits & Pass It On NW Ontario Lakes offer the resident and visiting angler incredible fishing opportunities . . .

Conservation minded anglers understand and practise release methods, select harvest carefully, and support conservation initiatives that will guarantee the survival of our fishing for future generations.

## Fishing License and Possession Information

### 2007 Sport Fishing License

Resident Seasonal .....	\$29.23
Resident Seasonal (Tag only) .....	\$23.29
Resident 1 Day .....	\$10.00
Non-Resident Seasonal .....	\$64.90
Non-Resident 8 Day .....	\$41.62

The above license allows you the possession limit of:

**Walleye:** Lakes south of Sioux Lookout and Lac Seul

4 – zero between 18-21" and only one may be over 21"

Lakes north of Sioux Lookout excluding Lac Seul

4 – only one greater than 18.1"

**Northern Pike:** 4 – zero between 27.5"-35" and only one may be over 35"

**Smallmouth Bass:** 4 (prior to July 1st, possession limit is 2 and both must be under 13.75")

**Lake Trout:** 2 \*Big Vermilion only – zero possession between 17.75-23.75" and only one may be over 23.75"

**Muskellunge:** 1 \*Lac Seul only – Zero Possession – Catch and release only

### 2007 Conservation Fishing License

Resident Seasonal .....	\$13.62
Resident Seasonal (Tag only) .....	\$13.62
Non-Resident Seasonal .....	\$39.64
Non-Resident 8 Day .....	\$24.28

The above license allows you the possession limit of:

**Walleye:** Lakes south of Sioux Lookout and Lac Seul

2 – zero between 18-21" and only one may be over 21"

Lakes north of Sioux Lookout excluding Lac Seul

2 – only one greater than 18.1"

**Northern Pike:** 2 – zero between 27.5"-35" and only one may be over 35"

**Smallmouth Bass:** 2 (prior to July 1st, possession limit is one and must be under 13.75")

**Lake Trout:** 1 \*Big Vermilion only – zero possession between 17.75-23.75" and only one may be over 23.75"

**Muskellunge:** Catch and release only

**Lakes south of Sioux Lookout and Lac Seul:**

You are not permitted to possess any live fish at any time (other than bait fish). At the time you catch the fish, you must decide to keep it or release it. If you decide to keep it, you must kill it immediately.

Non-Residents under the age of 18 years may fish without a license if accompanied by a licensed adult. Any fish caught will legally be part of the catch and possession limit of the license holder.

Additional catch and possession regulations apply to area lakes and can be reviewed in the Ontario Sport Fishing Regulations.

# CROSSING THE BORDER AND BEING PREPARED . . .

The following is a sample of a few things you may want to keep in mind when travelling across the Canada/U.S. border. For a complete listing of regulations, contact the nearest Canadian Consulate office.

1. There will be a change in respect to Passport requirements for all travelers entering the U.S. as a result of Western Hemisphere Travel Initiative Requirements. The U.S. congress has delayed a bill until June 1, 2009 – the final implementation date for requiring a passport to enter the United States from Canada by land or sea.

December 31, 2006 – Passports or other accepted documents are required for all air travel only to or from Canada. Persons under the age of 18 years of age who are not accompanied by an adult should also bring a letter from a parent or guardian giving them permission to enter Canada.

2. Be sure to have a valid driver's license, vehicle registration and insurance forms.

3. It is usually best to convert to Canadian funds after crossing the Border. Banks and currency exchanges will give good exchange rates for a small fee.

4. If you are bringing fish home, it is important to follow the Ontario regulations closely. Wrap one fish per package, and pack only the number of legal fish per person in the vehicle. If you are with a large group, with more than 1 vehicle do not put everyone's fish in one vehicle.

## LIVE RELEASE TECHNIQUES

Technique Suggestions provided by the Ministry of Natural Resources

### CAREFUL GEAR SELECTION

Proper gear selection will reduce the time fish are played. The time it takes to land a fish is important because a fish exhausted by a long struggle may never recover. Probably the most important item in gear selection is line strength - it should be adequate for the species being fished. For example, where lake trout average 2-3 kg (4-7 lbs), ultra light tackle, with 0.9 - 1.8 kg test line (2-4 lbs), is too light. Test line strengths of 3.6- 5 kg (8-10 lbs) would be more appropriate.

### ARTIFICIAL LURES ARE AN ALTERNATIVE

Artificial lures, especially ones equipped with a single barbless hook or a single barbless treble hook, generally result in fish being hooked in the mouth or lips, and not the gills or throat, since the hook is set as soon as a strike is felt. This reduces handling time and injury due to deeply ingested hooks. Using artificial bait is also fun and challenging.

### ADMINISTER AID

Most fish become stressed from the trauma of being caught and can be revived by administering first aid. Simply hold the

fish upright in the water moving it gently back and forth so fresh water flows over the gills. This may take a few minutes. When the fish is strong enough to struggle, release it.

### NEVER HANG UP!

Because water is much denser than air, taking fish out of water puts a tremendous strain on their muscles, their internal organs and their skeletal system. The risk of injury increases with the size of the fish. When you take fish from the water, either to remove the hooks or to take a picture, you can minimize damage by keeping the body of the fish in a horizontal position. Remember, keep larger muskie and pike in the water or a cradle when removing hooks or taking pictures.

### DON'T LET IT SWALLOW!

Small hooks, used with bait, are often ingested deeply, so rather than remove them and risk serious injury to the fish, it's better to cut the line and leave the hook imbedded. A small hook, even in the throat of a fish, will dissolve in a few days and the fish will be fine. Quick strike rigs, used when fishing with large live or dead baits, will also help prevent deep ingestion and actually improve hooking percentages.
